Power Company Reports Storm Worst in Years; Decatur, Other Cities, Plunged Into Darkness.

Gripped in one of the worst sleet storms to strike the city in recent years. Atlanta, Decatur and outlying suburbs Friday night were pitched in darkness when electric power lines sagged and broke beneath their heavy coating of ice. Telephone communication was hampered considerably and large trees, heavily weighted with ice, were uprooted in several parts of the eity.

One death was directly attributable to the sleet storm, and a number of other persons were injured when they were struck by automobiles or crashed

# Wins His Freedom AND ASKS 3.2 BEER

Representatives Will Take Up Brew Proposal Tuesday With Vote Expected Wednesday Night.

WASHINGTON, Dec. 16.-(AP)he drive for legalized beer gained uch momentum today that a house vote before Christmas seemed assured and champions and opponents of the everage prepared for a bitter battle begin next week.

The day saw the house ways and eans committee report its measure to make 3.2 per cent beer lawful and, meanwhile, a senate judiciary subommittee reached an agreement on phrasing of a provision in a bill to repeal the eighteenth amendment ving protection for dry states.

However, the hopes of California of their once flourishing wine business were crushed. The ways and means mmittee voted 14 to 9 against reporting a bill to make naturally fermented wines lawful. Congressional leaders considered the possibility of such legislation at this session as ended, although sponsors of the wine measure may try to introduce it from

measure may try to introduce it from the floor.

Reporting the beer bill, the committee estimated it would give the treasury \$300,000,000 annually, increase employment and help industry and agriculture. The revenue prediction was based upon an estimated annual consumption of 60,000,000 barrels, taxed \$5 each.

## On the Air Today

The bells of St. Botolph's parish church in Boston, England, will ring out for the first time in many years when their mellow chimes signal the opening of exercises celebrating the opening of exercises celebrating the completion of restoration work on the historic place of worship. The ceremonies will be broadcast throughout England and in America over the facilities of the Columbia Broadcasting System, including WGST, from 2:30 to 3:15 p. m. today. The exercises also will mark the 300th anniversary of the remove of the naming of Boston, Mass., after the old borough in Lincolnshire, Eng-

Eunice Norton, young American concert pianist, will be the soloist featured with the Philadelphia orchesra, under the direction of Leopole stokowski, in the second Saturday evening concert, sponsored by Philco, to be heard tonight from 7:15 to 9 p. m., over WGST and the Columbia network. Playing on the stage of the Academy of Music in Philadelphia, Miss Norton will offer the Concerto for Piane and Orchestra by the modfor Piano and Orchestra by the mod

The all-German program selected by Stokowski for the broadcast includes an orchestral version of Wagner's great music drama, "Siegfried," and great music drama, "Siegfried," and the third poem in the extraordinary series of tone-poems composed by Richard Strauss, "Tod und Verklarung" (Death and Transfiguration). The "Siegfried" selection will include the scenes of the young hero's forging of the sword. Nothung: "Forest Murmurs;" Siegfried climbing the burning mountain to Brunnhilde, and the awakening of Brunnhilde.

Lucrezia Bori, Metropolitan Opera soprano, will be featured as the guest soloist during the children's and young people's concert by the New York Philharmonic-Symphony orchestra conducted by Ernest Schelling, to be broadcast over the WGST-Columbia network today from 10 a. m. to 11:30 p. m., with Schelling at the piano, Miss Bori will sing a group of selections by DeFalla, Joaquin Nin, Granadoes and Obradors.

Continuing his exposition of the concerto form, Schelling directs the orchestra in movements from three Mozart concertos; for flute with John Amans as soloist; for horn with Bruno Jaenicke featured, and for bassoon with Benjamin Kohon as soloist. Douglas Moore's "Pageant of P. T. Barnum" and Albeniz's "Triana" conclude the program.

#### Mother Who Took Child Given Freedom by Judge

LOS ANGELES, Dec. 16.—(A)-The mercy of a court freed 20-yearold Ruth Borman today from a charge of stealing her own daughter, Nancy Irene Buchanan.

Superior Judge Robert H. Scott ordered the indictment dismissed, saying it was contrary to humanity and justice as well as law

and justice as well as law. The unwed young mother was ar-rested several months ago after tak-ing Nancy Irene from the home of the child's guardian, Mrs. Violet C. Buchanan, heiress daughter of an aristocratic family of England and the California Spaniards.

Miss Borman said she had become lonesome for her daughter.

## Sewer Improvement Plan Lauded by Council Leaders

County's Proposal To Aid COVENANT CHURCH Augurs Early Start by City on Construction Work.

Three additional council leaders and Clarke Donaldson, chief of construction, Friday joined more than a dozen other administration leaders, including Mayor James L. Key, in sanctioning the proposal of Walter C. Hendrix, chairman of the public works committee of Fulton county, that the county provide all materials and facilities for improving the sewer system except sand and cement for actual construction. The additional support assured start on the developments early in 1933.

Councilman James L. Wells, chairman of the streets committee, and Alderman G. Everett Millican, recognized floor leader of the 1932 council, were those who Friday added the weight of their approval to the plan to proceed at once to lay portions of at least two of the more trunk line sewers—one in the southern and the other in the northern sections of Fulton county.

Early Start Probable.

Work can be begun at once at an expense of only \$7,500 a mile; be the lowest we can ever hope to get. Why the Lioyd street trunk sewer cost over \$500.000 for about 2.000 feet. We could lay 66 miles for that much money. It would take only about \$150,000 to lay 20 miles at the figure we have been able to get through the cooperation of Fulton county as contained in Mr. Hendrix's letter, I feels we have been able to get through the cooperation of Fulton county as contained in Mr. Hendrix's letter, I feels we have been able to get through the cooperation of Fulton county as contained in Mr. Hendrix's letter, I feels we have been able to get through the cooperation of Fulton county as contained in Mr. Hendrix's letter, I feels we have been able to get through the cooperation of Fulton county as contained in Mr. Hendrix's letter, I feels we have been able to get through the cooperation of Fulton county as contained in Mr. Hendrix's letter, I feels we have been able to get through the cooperation of Fulton county as contained in Mr. Hendrix's letter, I feels we have been able to get through the cooperation of Fulton county as contained in Mr. Hendrix's letter, I

Impressive Masonic rites for George E. Argard, 72, nationally known Shriner and pioneer Atlantan, will be

money. It would take only about \$150,000 to lay 20 miles at the figure we have been able to get through the co-operation of Pulton county as contained in Mr. Hendrix's letter, I feel some that council will provide for the same that council will force in the two governments next year," Wells said, "Although I will not be a member of the 1933 council, I feel that this is of such importance that I am constrained to add my voice to the saiding the economical lines which Mr. Hendrix has outlined, Council should not hesitate to do everything possible to initiate the improvements at one with the concessions offered. I do not helleve such a golden opportunity will were be presented again.

\*\*Index the bear of such a fine proposition having been presented to the mayor and council." Lyle hasserted. "I am confident that the 1933 council, recognizing the need and the imperative demand for immediate action, will set up furch with which to start the program. I am wholeheartedly behind:

\*\*Council must correct the present sewer situation," Millican said. "Even fit the cost were larger I would support it, but with the present low fig. 666 LIQUID . TABLETS . SALVE Food Bill for Navy

The navy's chow bill for next year will be the lowest in 16 years. Because of decreases in wholesale food prices the sailors are to have

their forthcoming three squares a day at a cost of 42 cents. This, it is estimated, will result in a total food bill approximately 13 per cent less than the amount appropriated for in 1932.

The cost of feeding the blue jack-

ets during the last year was a frac-tion under 50 cents a head, daily. The army ration is 31 cents daily r soldier. Experts explain that the difference in food expenses is due to the fact that the army buys larger quantities for its posts while the navy is not able to follow this practice with its ships always on the move.

# TODAY CHEVROLET PRESENTS A NEW SIX

# Longer · Larger · Faster · Smoother · New in Styling · More Economical · Featuring Fisher No-Draft Ventilation

THE questions America has been asking for a month will all be answered today. You'll learn what the world's largest builder of cars has developed for 1933. You'll find out what happens when the leader builds a car to increase its leadership. You'll see the automobile that millions have been watching and waiting for: The New Chevrolet Six! And you'll discover a new scale of low prices—several models now selling at the lowest figures in Chevrolet history.

Front, side, rear—inside, outside—everything about this new car is advanced, improved, exciting. Longer wheelbase makes it the biggest automobile in today's low-price field. The latest principle of car design—"Aer-Stream" styling—gives it a totally different, ultra-modern appearance—as fine-looking as anything ever introduced at any price. The new Fisher bodies are larger, wider—faultlessly stream-lined—swung lower to the road for greater smartness and roadability—and offer the first basic improvement in travel comfort in over ten years: Fisher No-Draft Ventilation.

Chevrolet performance in every gear is faster, flashier, more brilliant. The time-proved six-cylinder engine is more powerful as well as more economical. Improved Free Wheeling is combined with a "silent second" Syncro-Mesh gear-shift. And Chevrolet engineers have stepped out ahead of the industry with a remarkable new patented development that wins, not a halfway, but a complete victory over vibration: The Cushion-Balanced Engine Mounting.

Chevrolet is able to do all this because Chevrolet has the advantage of being the world's largest builder of cars for 4 out of the past 6 years. Chevrolet builds cars in greater volume. Chevrolet buys materials in greater quantities. Chevrolet does everything on a bigger, more economical scale. Hence, Chevrolet is in a position to provide a better car at a better price than could possibly issue from any other source! Come, see this Great American Value for 1933. Let your eyes confirm the fact: The leader can accomplish what others dare not try!

#### FRANCE AND HER DEBT.

Repercussions both in America France to meet the war debt installment due December 15 indicate that the French will emerge from the temperamental "jag" responsible for their repudiation of a national obligation.

Negotiations will no doubt be entered into in the near future between the United States and her debtor nations with the view of providing that future payments on the debts owed us may be made

In these conferences France will occupy far from a favored seat. She must expect less consideration since she defaulted a just debt when she was able to pay, while Great Britain and other nations, less able to meet their obligations, paid promptly.

There are still other ways in which this country can retaliate. ### Opportunity.

After a few days' negotiation, Herr Hitler turned down President Hindenburg's invitation to form a government. Since the Hitler movement is modeled on the fascist movement in and Europe over the failure of Italy, it is perhaps interesting to learn what the Italian newspapers have to say on the situation. Unanimously they express great surprise that Hitler and his advisers have let another opportunity slip by to reach

psychological hour. Why Hitler hesitated is inexplicable."
He not only hesitated, he fell down completely. He wanted a free hand to form his cabinet. Hindenburg made certain conditions. The president is namely opposed to the dictatorship of one single party. He wanted Hitler to form a German experiment, and not form a German government, and not merely set up a nazi dictatorship. And so that is over. This is the nearest Hitler ever came to reaching power. Whether another opportunity will come along is extremely doubtful. Hit-lariem, has reached its constitution lerism has reached its apex. It can majority of the voters behind its program. the boy friend who demands a monopoly.

Perhaps you haven't met that kind yet, but you will. And about the third time he buys you an ice cream soda, he will assume that you are private property and insists that you avoid the company of other boys.

I wonder how you will answer him.

I think these moderns who get liquored up and forget they are married are rotten to the core, and I think young people who fall in love and pledge themselves to one another for life should desire no dates except with one another. If a girl engaged to one youth still claims the right to have dates with others, she hasn't yet found her mate and had better break loose while she can.

But while she remains unengaged, no boy has a right to demand a monopoly of her. The boy who does is a pluperfect egoist and his monumental gall and selfishness deserve a thorough squelching.

In effect he says: "Since I have condescended to show an interest in you. I am now your master. The occasional privilege of being with

I shall take you places when it pleases me, and at other times you must sit at home me should satisfy That may be a little hard on you, but the object of our relationship is my pleasure—not yours."

Maybe that wouldn't offend you, but it should at least serve as a

warning. Boys that selfish and inconsiderate are the ones that later in life keep their wives in purgatory. They are jealous and suspicious. They demand everything, yet they howl when asked for a nickel and they spend most of their earnings to show themselves a good time. Better let the little egoists alone, my dear. ## Capital Leaders Inclined To Let France Do Worrying

Washington Takes Default News Relatively Calmly, Figuring That Pressure Is on Paris.

By MARK SULLIVAN. WASHINGTON, Dec. 16.—The Washington attitude about the French decision not to pay the December 15 instalment of the debt has been conspicuous by absence of excitement. In congressional cloak-rooms there has been rather more interest in developcongressional cloak-rooms there has been rather more interest in developments about changes in the national organization of the republican party and speculative gossip about President-elect Roosevelt's cabinet. Uncertainty Gone.

This American quiet does not mean lack of realization of the seriousness of what France has done. It reflects the feeling that the gravity of the act attaches to France rather than to the United States. There is wonder whether the French fully realize the disadvantage they have put upon themselves. So clear seems the harm which France did herself that there was some surprise that she might, almost immediately, recall her action and restore herself to the place she has long and had among nations which punctiliously meet their obligations.

All the apprehension Washington has felt acutely at times during the past few weeks, is put at rest by the fact that Great Britain, as well as Italy, Czechoslovakia, Finland and Latvia, are paying. Had Britain failed to pay, there would have been failed to pay, there would have been real dismay, and still more acute apprehension for the future. The world is trade to An example of default in such high places might have led to a contagious weakening of respect for obligations, public and private, all over the world. This Washington anxiety was completely eased when it was learned that Britain would live up to the ideal of meeting obligations. There is in Washington a feeling of high respect toward Great Britain for being willing under hard circumstances to prevent this clackening of the ideals upon which organized society rests. It on which organized society rests. It upon which organized society rests. It is felt that Britain's action gives a new elevation to the sanctity of contracts and agreements between nations, not only financial ones but ordinary treaties. It looks as if the Florida weather is to score the only victory of the week-end by beating the California brand.

#### GULLS OR BOYS.

The gulls, which ride the ferry boats which ply between Oakland, Berkeley, Richmond and other bay cities and San Francisco, called The City, are a source of great amusement to the boys here from the inland city of Atlanta.

They are big fellows. Some of them sit on the rails of the big ferry boats and look around with an insolent

Others fly steadily, coasting, banking, making airplane stunt men look very bad indeed. I invested in some doughnuts and pieces of them, tossed into the air, were caught with a dexterity and ease which soon had us all tossing doughnuts. The regular citizens looked on with tolerant smiles.

They tell the story of an Irishman who was making his first trip on the ferry.

"Look at all them pigeons," he said to a friend. "Them ain't pigeons," said his friend; "them's gulls." "Well," said the Irishman, "gulls or boys they are still pigeons."

I thought it was pretty bad myself, but I just heard it today.

#### SAN FRANCISCO.

San Francisco rambles up hill and then rambles down again. It looks like piled-up pieces of cubist art. But it is a grand city. It has Italian sections with great dinners where one may eat as much as one can and drink dago red along with it all for \$1. And there is one restaurant which supplies a box along with the dinner to take home that which can't be eaten.

There are the Chinese sections with the old women in the old Chinese dress. And there are pretty Chinese flappers in modern dress. The old residents who still worship Buddha are about gone. I went to the old temple and there were but four joss sticks burning-just four left. The American-born have gone to Christian churches or none at all.

A tong war threatened for a time. But the powerful tongs have quit war. There are no opium dens in Chinatown. It is safe night or day. It is quaint. The Chinese with the ducks, cooked in peanut oil, hanging in windows.

With the queer meats in the shops and the bottles of snakes and bugs in the windows of the chemists' shops. The chop suev places are gay at midnight. There one may see many of the younger Chinese-there and in the night clubs of the city.

But they live their own life, keep to themselves and maintain that inscrutable impassiveness of the oriental.

#### THE STEAMSHIP VIRGINIA.

Newspapermen of the Tech party were taken to the steamship Virginia today for lunch. It is the ship on which the party will sail down the coast and through the canal.

It is a 32,000-ton steamer, larger than many in the trans-ocean trade. It is a beautifully arranged and furnished ship. We saw it all, the great kitchens with the electric ranges, the tremendous engines and turbines

The party sails from Pedro Monday morning, going to Los Angeles Sunday and boarding the ship on arrival.

Cal, according to testimony of all the football critics, is "given up" to be the best tackle from coast to coast and that goes for your Ernie Smiths, your Kurths and all the other star swashbucklers of the line. If there is anything in the world that Cal Hubbard fears, no one has ever discovered it. He is making rapid progress as an umpire, largely because of the utter screnity with which he takes the outbursts of ball players and the imposing figure he makes in a blue monkey suit and a chest protector.

Last summer he was an umpire in the Western league. Some day he will be sold to one of the big leagues and then he will have the honor of being employed by the two biggest organizations in baseball and football. The Green Bay Packers are members of the National Football league.

The story goes that one day McMillin was moping around wishing for a tackle when he looked down the road and saw Hubbard approaching at the wheel of a coughing, sputtering Model T. ## Neyland States L.S. U. READY He'll Hold Vol Post FOR OREGON'S

KNOXVILLE, Tenn., Dec. 16. (AP)—Major Robert R. Neyland Jr., head coach at the University of Tennessee for the past seven years, will remain through another football season, he announced tonight. Major Neyland had been stationed in the office of the United States district engineer at Chattanooga since 1930, coaching the football squad during the fall.

"I have decided to remain in

present detail," Neyland said. "Though I have received several offers to go elsewhere, I do not want to leave Chattanooga at this time when actual construction has just begun on the project for ca-nalization of the Tennessee river.

#### Thomasville Wins Over "All-Stars"

THOMASVILLE, Ga., Dec. 16.—On a muddy gridiron the Thomasville High Bulldogs defeated a team of "All-Stars," composed of former Bulldogs, 14-6 yesterday afternoon, in a charity game. The funds derived from the game went to the undernourished school children's lunch fund. Due to rainy weather the attendance was much smaller than was expected. Several former college and college freshman players were on the "All-Star" squad, including "Red" Milton, former Davidson lineman; Mitchell, ex-Georgia freshman tackle, and Huey Murphy, former Duke freshman,

The game will be an anti-climax to L. S. U.'s most successful season in five years, representing that length of time it took them to beat Tulane. The westerners came here directly from the Tulane camp in New Orleans, where they had worked out since Wednesday, and they appeared to have picked up some of the Tulane spirit which is a little more determination to beat L. S. U.

Coach "Prink" Callison looked at the leaden skies and remarked: "The sloppier it gets, the better we like it." Scaling barely above the light-weight limit while McLarnin came in a shade under the weiterweight poundage of 147 pounds, Sammy bit off altogether more than he could

upper five floors of the seven-story building were gutted.

The fire broke out before many customers had arrived but it was estimated 1,000 persons were in the building, of which 600 or 700—mostly sales girls—were trapped on upper floors at first.

In the panic a few jumped from the building and were killed. Others were suffocated before firemen began a series of spectacular rescues. Hundreds were taken off the balcony of the fifth floor by ladders, ropes and canvas chutes.

Two hundred were huddled in the roof garden, while smoke billowed around them when firemen finally arrived and rescued them.

True, she had the very splendid support of Robert Montgomery and a vehicle which suited her peculiar style excellently well. The story begins with her in the role of a rich heiress and Montgomery as a \$20,000 advertising expert. Let's get right down to talk about SAV-

That's what we are all interested inthat's the kernel of the whole thing-THAT'S THE REAL REASON SO MANY OF US HAVE DIVERTED OUR TRAFFIC FROM THE RAILROADS TO OTHER MODES OF TRANSPORTATION.

ING MONEY FOR YOU in transportation.

PRICE! SAVING! That's the lure! And. naturally so. We wouldn't amount to very much if we were not interested in getting the most for our money-or getting the same results for less money-IF WE GET IT. NO SANE PERSON CAN HAVE ANY CRITI-CISM AGAINST THAT MOTIVE.

The point is, however-

YOU ARE NOT SAVING ANY MONEY by diverting your traffic from the Railroads! ON THE OTHER HAND IT IS GOING TO COST YOU-AND COST 'TIL IT HURTS!

Oh, yes-It's true that rates are lower at present for commercial motor transportation of freight and passengers than they are by Railroad. Why shouldn't they be-when we allow these competitors of Railroads free liberty of movement, policy and practice with practically no taxation and yet restrict and tax the Railroads at every turn? But-

WE ARE TALKING RIGHT NOW ABOUT YOUR SAVING MONEY as a result of the situation. AND WE'VE SAID YOU DIDN'T SAVE ANY!

It's perfectly true that you do pay less under present conditions when you patronize these other modes of transportation than you do when you use the Railroads. BUT IS MONEY REALLY SAVED FOR YOU?

When you tear off that part of your Railroad dollar that you have "SAVED," through patronizing unrestrictive carriers, and put it in YOUR pocket-what have you done? HAVE YOU REALLY SAVED MONEY FOR YOURSELF?

You think you have, of course. It naturally seems so. You take that difference and spend it for something else-or put it in the bank. SAVING? Yes - for a little while, but-

What are you really doing? WHY - FOR EVERY DOLLAR YOU "SAVE" IN THIS MANNER YOU ARE PIL-ING UP COSTS BY THE HUNDREDS OF

The Future of Forty Thousand People Dependent Upon Railway Employment in Greater Atlanta--- The Future of a Normal Annual Railroad Payroll of Fourteen Million Dollars in Circulation Among Us in Atlanta is Affected by Your Apparent "Saving" on Transportation.

#### DOLLARS IN THE FUTURE FOR YOU AND YOUR CHILDREN!

You are doing your part to drive the second largest industry in the nation into hopeless bankruptcy. You are helping to close thousands upon thousands of schools that are absolutely dependent upon Railroad taxes. You are handicapping the work of churches, colleges, hospitals and charitable institutions.

YOU ARE EVEN VITALLY WEAKEN-ING INSURANCE COMPANIES IN WHICH YOU YOURSELF HOLD POLICIES and Savings Banks in which YOUR REAL SAVINGS are deposited, by helping render the billions of Railroad Bonds which they hold worthless.

You are depriving the city, the county, the state, the nation in which you and your family live of huge revenue they MUST have to continue serving you with the needs of modern life.

AND GRAVEST OF ALL - YOU ARE THROWING VAST ARMIES OF YOUR FEL-LOW CITIZENS OUT OF WORK AND INTO THE BREAD LINE-dependents upon charity-upon YOU-until they may find other means of livelihood after having spent a lifetime in Railroading for the convenience and comfort of you and all of us-and in helping build the Nation.

AND WHO IS GOING TO MAKE UP THE DEFICIT CAUSED BY ALL THIS DE-STRUCTION WROUGHT BY YOU-WHO IS GOING TO PAY THE COSTS? Whobut the People-you and US!

That's the future you can look to if you persist in driving the Railroads into bankruptcy through non-support. THAT'S THE PHANTOM HAND THAT'S REACHING INTO YOUR POCKET EVERY TIME YOU "SAVE" MONEY by taking traffic away from the Railroads.

Is this saving money? If so, we say-WHAT PRICE SUCH SAVING? Think! Fellow Citizens. Think!

Think of YOUR OWN INTERESTS. Forget the Railroads. Forget the Commercial Motor Traffic. Forget the controversy. THINK ONLY OF YOUR OWN SELF. Think only of your own future interests and the interests of your own children.

## Business, Professional Women Musicale Given Hear Interesting Emblem Program

The emblem of the Federation of Business and Professional Women's Clubs, "the visible sign of the invisible ideal," was described in talks made by Miss Rebecca Shaman, president of the state federation and a past president of the Atlanta club; by Miss Ada Booth, a past president of the Atlanta club; by Miss Ada Booth, a past president of the local club and the state federation, and by Miss Leita Thumpson, president of the local club, before the members at the hounthly dinner meeting at the Wincoff hote Wednesday evening.

Miss Shuman, in interpreting the emblem symbols, said that progress of the times and of beliefs had always been marked by symbols, and that the emblem of the federation of business and professional women typified courage, truth, power, culture, law and love.

Miss Booth spoke of the value of the emblem to the wearer, saying that inspiration is derived because of the ideals which it represents, and which have caused women to serve not only in the home but in business and in the professions and other spheres of activity.

Miss Thompson told of the obligation of the omblem wearer in continuous for professional work. FREQUENT FLUCTUATION NOTED AT NEW ORLEANS

NEW ORLEANS, Dec. 16.—(A)—Cotton trading was largely a professional affair today and prices fluctuated frequently and uncertainly under the influence of scalping operations by the influence of scalping operations by ring traders and response to trends in stocks and wheat. An afternoon rally stocks and wheat. An atternoon range was not fully maintained, but the close showed net gains of 4 to 7 points. Weekly statistics were rather disappointing with mill takings below last week and last year.

Stock Letters.

NEW YORK, Dec. 16.—Today's break in the wheat market brought selling in stocks. Volume was moderate but with other influences lacking this factor had a disproportionate effect. There was also renewed selling in a leading investment issue, possibly for tax loss purposes and the copper and oil stocks were-weak. Before the close, however, a good many stocks had risen to last night's closing levels. Wheat recovered slightly from its low point, but showed a considerable loss for the day.

With some outstanding exceptions the stock market held remarkably well in the face of discouragement and unless the type of unfavorable factors mentioned above become more acute, there is no reason to expect a down trend in the immediate future.

FENNER, BEANE & UNGERLEIDER.

NEW YORK, Dec. 16.—The action of the market today contributed little which would tend to clearly define its immediate prospects. Essentially, stock trading maintains a character which is suggestive of an accumulation in anticipation of a further extention of the advance before the end of the year. At the moment there is little stimulus in the way of outside news developments to set an upward movement going, but we would favor extending trading positions at the lower levels of the present trading range such as the market passed through today.

We continue to look for a favorable weekend market and interpret the strong close today as paving the way for a further advance in prices in tomorrow's short session.

NEW YORK, Dec. 16.—There was little change in the character of the market to-day. Some moderate reaction in early trading largely was cancelled by an upward trend in the afternoon. Price reductions on the part of Plymouth and Chevrolet were announced during the day. Instead of having an adverse effect on the stocks of the companies involved, however, traders seemed to realize that by means of the lower prices these companies probably would be able to increase their business. As a matter of fact, we understand the Chrysler business currently is better than for a long time past and that this is the factor responsible for current strength in the stock. BEER & CO.

NEW YORK, Dec. 16.—(P)—Cotton closed a shade higher today after a session of narrow price movements.

March contracts after some early irregularity, sold up to 6.11, or 12 points net higher, but eased off to 6.01 at the close under increased offerings. The final tone of the market was easy, although last prices showed net gains of 1 to 4 points.

The opening was 1 point off on December but generally unchanged to 2 points higher.

Offerings from the south were said to be lighter than yesterday. January sold up to 5.99 and May to 6.22; with active months generally showing net gains of 10 to 16 points.

Closing prices showed reactions of about 9 to 13 points from the best.

NEW YORK, Dec. 16.—Liverpool was slightly better than due this morning; our market opened unchanged, being very quiet and steady and advancing gradually until fust before the close, when some heavy selling appeared by brokers usually operating for farm board. Many believe that this is perhaps selling out of long futuresheld by the farm board and replacement of spot cotton to be given to the Red Cross. Aside from this one feature the principal point was the buying believed to be for Liverpool account. The market continues to be extremely narrow and is easily influenced.

NEW YORK, Dec. 16.-(P)-Strength in some of the prime investment favorites coincident with a decided tendency to softness in the many so-called secondary issues of practically all groups, marked today's bond

In the foreign division German government and municipal issues were featured by active buying which resulted in several substantial advances. Reversing their heavy trend of yesterday French Republic 71-2s of 1941 climbed about a point. United States governments displayed an casy tone receding from their highs of the previous day.

Price movements in the rails were

Price movements in the rails were highly confused, with many of the top grade loans, continuing to hold firmly in the face of rather sharp declines in the more speculative issues. Losses ranging from 2 to 3 points were registered in some of the issues of the Chicago, Rock Island & Pacific, Gulf. Mobile & Northern and Chicago & Northwestern.

Northwestern.
Utility issues were marked by general firmness.

Reconstruction Corporation and all amounts received in repayment of leans made for 1932 should be allowed for making loaus for crop production next year.

The leans would be made on the same terms and conditions as are now applicable except that preference would be given farmers who suffered crop failure this year.

NEW YORK, Dec. 16.—(P)—The weekly mercantile reviews said today that business and trad, showed increasing signs of stabilization, and that the eon mic onflook was becoming somewhat brighter.

"Business has established a line of resistance which is not yielding during the first two weeks of the present month," Bradstreet's asserted. Admitting that retail trade is poor both in value and physical volume, this agency found some compensations in signs of improvement in industrial production.

Dun's declared that most of the business news of the week had been of a constructive tenor, adding that "while the major industries continue to recede under seasonal influences, some encotragement is provided by the fact that the downward rate is not so rapid as it was a year ago and that the foundation is more secure and amply reinforced to take advantage of any broader trade movements."

IN SWEDISH COMPANY

NEW YORK, Dec. 16.—(P)—The
Internation.1 Telephone & Telegraph
Company announced today that it had
acquired title to 610.000 shares of
stock of the I. M. Eticcson Telephone
Company, of Stockholm. Sweden, and
had cancelled its claim against the
bankrupt estate of Kreuger & Toll
for the amount paid for the shares.

Kreuger & Toll, before its financial
collapse, held a controlling interest in
the Ericcson company. International
Telephone Company closed a deal in
1931 whereby Kreuger & Toll was
to deliver the above amount of Ericcson stock in return for an undisclosed
amount of International Telephone
shares.

CURB LIST SHOWS IRREGULAR TREND

BY CLAUDE A. JAGGER. BY CLAUDE A. JAGGER.

NEW YORK, Dec. 16.—(P)—The curb market was under scattered selling presure in another quiet session today.

The list developed a little better tone toward the close, but final prices were irregularly lower, with oils notably heavy.

were irregularly lower, with one hotably heavy.

The petroleum group was depressed by the slash in midcontinent crude prices. Cities Service, an active feature, sagged 1-4 to 2 5-8. In a smaller volume, Standard of Indiana lost 1 1-8 and Gulf 3-4.

Utilities stiffened somewhat in the late dealings. Electric Bond & Share held to a narrow range, showing a loss of 1-2 at the one time, then recovering to finish up 3-8. American Gasterials & Electric declined nearly a point, then rallied to close unchanged. The preferred issues of these companies lost about a point.

lost about a point.

Industrials were mixed. Aluminum Company lost more than a point, then regained a fraction. Deere sagged 1-2, in sympathy with the heaviness of wheat. The day's total transactions were about 160,000 shares, off some 20,000 from vesterday. some 20,000 from yesterday.

NEW YORK, Dec. 16.—The stock market closed irregular today, with most issues showing net losses.

Considering the fact the security markets were confronted with an unusually sharp break in the price of wheat at Winnipeg and Chicago, the share list was considered to have exhibited a remarkable show of stability.

Traders have been selling the common stock on the theory reduction or omission of the preferred dividend will remove the common further away from resumption of dividends. Important professionals, however, do not believe much money can be made sellier the preferred stock under its preserved. ing the preferred stock under its pres-ent level.

It is felt even if the preferred dividend is omitted the stock should not sell below a range of 50 to 55 be-cause the disbursement is cumulative.

#### FRIENDLY COUNSEL BY CAROLINE CHATFIELD

Problems of general interest submitted by readers will be discussed in this column. Correspondence invited. Your name held in confidence. Write Miss Chatfield, care The Atlanta Constitution,

Recently I met a man that I fell in love with the minute I laid eyes upon. I have every reason to believe that he have that he was the second of the latter that he loves me better than he has ever loved any woman. He calls me on the 'phone every day and he comes to see me once a week. But, dear Miss Chatfield, he is married and has several children. I have common sense enough to know this can't go on in definitely. His pride is in the way of his getting a divorce. I wouldn't want him to divorce his wife now. Mr. and Mrs. Clyde Lanier King want him to divorce his wife now have issued invitations to a tea-dance

Common sense enough you have to penetrate to the heart of your predicament but kindness enough you have not to put yourself in the wife's place and to realize how your plans have paralyzed any possible opportunity that her husband might have to make his wife hapove Lore makes one blind they py. Love makes one blind, they say. Then let us open your eyes. Do you realize how impossible it is a husband and father to do his duty by his family when he is car rying on a clandestine affair with another woman, when he has actu ally set a limit of five years on the time he is to live with that fam-ily? Do you realize that the fiveyear period is laid out with the faint hope that the wife will be "laid out" before that time shall have elapsed? Do you realize that the pride which you assume the man now feels is his one claim to respectability and integrity and that you are planning to persecute that pride until it dies? Do you realize that at the end of five years this same man, discovering how easy it is and how cheap to have affairs on the side with unmarried women, will probably try his hand

No, young lady, love is a thing of slow accretion, built up through

the years. These married men that tell you they love you better than they have ever loved any other woman are, more often than otherwoman are, more often than otherwise, referring to something entirely different from the stabilized affection they feel for their wives. They have the habit of marriage fastened upon them more firmly than they guess and when the time comes to break that habit they plead pride, or paternal duty or financial impecunity or some other virtuous reason for their inability to get the disorse from the wife.

Mr. and Mrs. Clyde Langer have issued invitations to a tea-dance at which they will entertain Thursday, December 22, in honor of their son, John King, who returns tomorrow from Culver school in Indiana, at their home on Ponce de Leon are not in Druid Hills. The guests will include a number of the younger set.

ANSWER:

So, I have just and if at the count wait five years from the standpoint of morality and expediency and security for yourself the very best thing you can do is not only to strike out the five years and in a studio recital on Saturday after on a studio recital on Saturday after on a studio recital on Saturday after on a studio recital on Saturday af ises and pledges that are scaled by church and state and witnessed by flesh and blood children. What have you to balance against this? A few nebulous nothings spoken by a man whose word of honor is worthless as shown by his willingness to disregard the state of the shown by his willingness to disregard the same word of honor given to an-other woman in consecration of his

other woman in consecration of his marriage vow.

CAROLINE CHATFIELD.

DEAR MISS CHATFIELD:

I had a boy friend and he was as fond of me as I was of him until I introduced him to my sister. He fell for her at first sight. This is not the first time this thing has happened to me. Time and time again she has taken my boy friends from me. I don't think she means to do it, but she is more attractive than I am and they can't resist her. If you will tell me how to prevent this occurring again I will be very happy. C. W. again I will be very happy. C. W.

#### Bidding Grand Slams

The new scoring undoubtedly has caused more Grand Slams to be bid than ever before. This is entirely logical, as the premium is so much greater. The former rule, that at least a 3-to-1 chance of making it is neces-sary, has to be abandoned, as the difsary, has to be abandoned, as the dif-ference in points is so much greater.

The following hand was bid by Mrs.

five spades. It gives partner an opportunity to judge the fit of the hands and also allows more information to be conveyed at lower levels.

An indirect Slam try. The fact that another suit is bid shows that the hand contains extra possibili-ties. A bid of three notrump or three spades would be in the naties. A bid of three notrump or three spades would be in the nature of a stop signal. The club bid increases the value of the North hand, as there is no longer any dauger of duplication. Had South bid three hearts, North would have been content with a five spade bid.

On North's bidding, a Grand Slam must be a laydown. When partner A. R. Leisher, of Renova, Pa., well-

On North's bidding, a Grand Slam must be a laydown. When partner can make a Forcing bid and then leap to a Slam over partner's response without three Aces, his hand must be sufficiently padded with intermediates and be distributionally strong in addition. There is no danger in contracting for seven.

seven.

There is nothing to the play, as not even the club finesse is necessary. Two clubs are discarded on the Ace-King of diamonds and two hearts ruffed in Dummy. This is an example of a sound Grand Slam, bid correctly under the old scoring. Under the new scoring it would be reached by any number of players.
